

CD-R Recordable Disc

This CD-R disc is designed for one-time recording of digital data. It is compatible with standard CD writers and readers.

Product Overview

Professional Grade CD-R Media

This blank recordable CD-R is engineered for reliable one-time digital data recording. With a standard 120mm diameter and 700MB capacity, it is perfectly suited for audio recording, software distribution, and secure data archiving. Its durable polycarbonate substrate and reflective surface ensure compatibility with standard CD readers and writers.
