Product Overview

Professional Safety Rain Boots

These knee-height safety rain boots are engineered for demanding industrial environments, offering reliable protection against water and workplace hazards. Constructed from durable PVC with Nitrile, they feature a steel toe cap and steel midsole for comprehensive safety. Designed with an energy-absorbing heel and slip-resistant sole, these boots are suitable for both indoor and outdoor use on hard or tiled floors.

Compliance & Standards

Safety Standards

CE EN 20345:2011, S5

Construction & Materials

Key Features

- Steel toe cap
- Steel midsole
- Energy absorbing heel
- Slip resistant outsole
- Abrasion resistant

Material

Upper: PVC with Nitrile; Outsole: Injected PVC with Nitrile

Usage & Maintenance

Care & Maintenance

Clean the boots under water or using a neutral detergent with a wet sponge. Brush the outsole after use to remove debris. To remove clay and dust, use a non-metallic brush. After use, leave the boots unpacked in a well-ventilated area, away from any direct heat sources.

Storage Requirements

Keep in original packaging away from light, humidity, and heat sources.
