Product Overview

Professional Face Protection

This CE EN166 certified face shield is engineered for reliable facial and eye protection in industrial and professional environments. Featuring a clear polycarbonate visor with a reinforced aluminum edge, it offers high-impact resistance and optical clarity for unobstructed vision. The design ensures a comfortable, adjustable fit suitable for various head sizes, making it an essential safety component for high-speed particle protection.

Technical Specifications

Safety Standards

CE EN166

Material Polycarbonate with aluminum edge

Visor Dimensions 39 x 20 cm

Size Single Size (Adjustable)

Performance Metrics

Impact Resistance

120 m/s

Energy Impact

Operating Temperature Range -5°C to 55°C

Usage & Safety

Usage Limitations

- Not unbreakable
- Does not protect against fine dust particles
- Does not protect against liquid splashes (including molten metals)
- Does not protect against hot solids or electrical risks
- Does not protect against gas, infrared, or ultraviolet rays

Care & Maintenance

Storage

Store in a cool, dry place away from frost and direct light.
