Product Overview

Professional Welding Protection

This CE EN175 certified welding helmet is engineered to provide robust protection for the face and eyes during welding and cutting operations. Designed for durability and comfort, it features a flip-up lens holder for quick glass changes and a wheel-ratchet harness with a soft foam pad. It effectively shields users from harmful light, sparks, and UV/IR radiation in demanding work environments.

Technical Specifications

Safety Standard

CE EN175

Glass Size

108 mm

Width

50 mm

Height

Material

Polypropylene (PP)

Power Source

None (Passive)

Design & Features

Key Features

- Electrical insulation properties
- Protects face and head from sparks
- Anti-UV and IR lens protection
- Easy-change flip-up design

Lens Mechanism

Flip-up

Headgear

Wheel ratchet harness with soft foam head pad

Applications

Recommended Applications

Welding, Cutting, Gas Cutting
