

Ceiling Cassette Air Conditioner

This ceiling cassette air conditioner is designed for recessed installation in suspended ceilings, providing efficient cooling and heating. It features a square-shaped grille with adjustable louvers for optimal air distribution and includes a compact outdoor unit.

Product Overview

High-Efficiency Ceiling Cassette System

This ceiling cassette air conditioner is engineered for seamless recessed installation in suspended ceilings, making it an ideal solution for both commercial and residential environments. The unit features a sleek, square-shaped grille with adjustable louvers that ensure optimal air distribution throughout the space. Designed with energy efficiency in mind, it helps reduce operational costs while providing reliable heating and cooling performance.
