

Ceiling Fan with Integrated Lighting

This ceiling fan provides both cooling and illumination for residential spaces. It features five blue blades, a brushed nickel finish, and an integrated three-light kit.

Product Overview

Traditional Ceiling Fan with Integrated Lighting

This ceiling fan combines classic aesthetic appeal with functional climate control and illumination. Featuring a robust brushed nickel finish and five durable blue blades, it is designed to provide reliable airflow for residential environments. The unit includes three integrated lights, offering a comprehensive solution for both air circulation and room lighting.
