

Ceiling Mounted Air Conditioning Unit

This ceiling-mounted air conditioning unit is designed for efficient cooling and ventilation in various spaces. Featuring a rectangular housing with circular air outlets, it integrates into a building's central air conditioning setup.

Product Overview

Efficient Ceiling-Mounted Cooling Solution

This ceiling-mounted air conditioning unit is engineered for high-performance cooling and ventilation in both residential and commercial environments. Featuring a robust rectangular housing and three prominent circular air outlets, it is designed for seamless integration into central ducted systems. Its versatile design ensures even air distribution and efficient climate control for large indoor spaces.

Design & Construction

Mounting Type	Ceiling Mounted
Housing Style	Rectangular ducted housing

Air Distribution

Air Outlets

3 qty Circular Ducts
