

Ceiling Mounted Bathroom Heater with Infrared Lamps

This ceiling-mounted heater provides rapid warmth in bathrooms. It combines infrared heating lamps with a central light for both heating and illumination.

Overview

Efficient Bathroom Climate Control

This ceiling-mounted bathroom heater is engineered to provide rapid, comfortable warmth for residential and commercial bathroom spaces. Combining powerful infrared heating technology with integrated lighting, it offers a dual-function solution that saves space while enhancing user comfort. The sleek, white square housing with rounded edges ensures a modern aesthetic that blends seamlessly into any bathroom ceiling design.
