

Ceiling-Mounted Bathroom Heater with Light

This bathroom heater is designed for ceiling installation. It features heat lamps for warmth and a central light for illumination.

Product Overview

Integrated Bathroom Climate Control

This ceiling-mounted bathroom heater provides an efficient, all-in-one solution for comfort and lighting. Designed for easy integration into bathroom ceilings, the unit combines rapid infrared or halogen heating with essential overhead illumination. Its durable metallic housing and ventilation design ensure safe, reliable operation in humid environments.

Technical Specifications

Installation	Ceiling-Mounted
Connection	Hardwired
Heating Source	Infrared/Halogen Lamps
Lighting	Yes

Construction

Design Elements

- Four heat lamps
- Central illumination light
- Perimeter ventilation holes

Housing Material	Metallic (Aluminum/Stainless Steel)
