

Ceiling Mounted Split Air Conditioner

This split air conditioner features a ceiling-mounted indoor unit. It includes a remote control for adjusting temperature and fan speed.

Product Overview

Professional Ceiling Mounted Climate Control

This ceiling-mounted split air conditioner is designed for efficient climate control in commercial or residential spaces. The system includes a sleek, square indoor unit with adjustable vents for optimal airflow distribution, paired with a robust outdoor compressor unit. It comes equipped with a remote control, allowing for precise management of temperature settings and fan speeds to ensure consistent comfort.
