

Ceiling Mounted Ventilation Fan

This ceiling mounted exhaust fan is designed for ventilation in residential or commercial spaces. Its compact design allows for easy integration into various ceiling types.

Product Overview

Efficient Ceiling Ventilation

This ceiling-mounted exhaust fan is designed to effectively remove stale air and moisture from residential or commercial environments. Featuring a durable white cubic housing with three circular duct connections, it ensures versatile integration into various ceiling types. The unit is engineered for long-lasting performance and quiet operation, significantly improving indoor air quality.

Key Features

Core Capabilities

- Multi-port design with three circular duct connections
- Compact cubic housing for easy ceiling integration
- Durable construction for long-term reliability
- Quiet operation suitable for occupied spaces
- Integrated mounting brackets for secure installation
