

Ceiling Mounted Ventilation Fan with Light

This ceiling-mounted ventilation fan provides both ventilation and lighting. It is designed for bathroom applications to remove moisture and odors while providing illumination.

Product Overview

Integrated Ventilation and Lighting

The BF70L-130 is a ceiling-mounted ventilation fan designed to efficiently remove moisture and odors from bathrooms and similar indoor spaces. This dual-function unit features an integrated dome-shaped light fixture with a frosted diffuser, providing essential illumination alongside powerful air extraction. Constructed with a galvanized steel housing, it is built for durability and reliable performance in residential or commercial environments.

Technical Specifications
