

Centerless Peeling Lathe for Round Bars

This centerless peeling lathe is designed for processing round bars. It enhances surface quality and dimensional accuracy.

Product Overview

High-Performance Centerless Peeling Lathe

This high-speed steel round bar centerless peeling lathe is engineered for precision and efficiency in metalworking applications. Designed for the specialized production of steel bars, this machine leverages proven innovation to deliver world-class quality and technological results. It serves as an essential solution for high-precision bar processing, trusted by industry professionals for reliable performance.

Technical Specifications

Centerless Lathe Models

- BP-80
- BP-40
- BP-150
- WC-250

Straightening Calender Models

- JP-15
- JP-50
- JP-80
- JP-150

Capabilities

Equipment Types

Steel Bar Peeling Machine, Centerless Machine, Steel Bar Straightening Machine
