

# Central Eye Lifting Hook with Safety Latch

This central eye hook is designed for lifting and rigging applications. Constructed from high-grade alloy steel, it provides a secure connection point for chains, ropes, and slings.

## Product Overview

### Central Eye Lifting Hook

This heavy-duty central eye hook is engineered for demanding lifting and rigging applications. Constructed from high-grade alloy steel, it provides superior strength and durability for overhead lifting tasks. Equipped with a reliable safety latch, it ensures secure connections and prevents accidental disengagement during operation.

## Technical Specifications

Material	High-grade alloy steel
Safety Features	Safety Latch, Accidental Disengagement Prevention

## Applications

### Compatible Rigging

- Chains
- Ropes
- Slings

### Suitable Environments

Industrial • Construction • Marine
