

Centrifugal Fan Impeller

This is a centrifugal fan impeller designed for air conditioning and ventilation systems. The black plastic fan features curved blades and a reinforced hub for durability and efficient airflow.

Product Overview

High-Efficiency Centrifugal Impeller

This centrifugal fan impeller is engineered for optimal airflow in demanding ventilation and air conditioning environments. Constructed from durable, high-grade black plastic, it features a precision-curved blade design that maximizes air movement while maintaining structural integrity. The reinforced central hub ensures secure mounting and reliable operation, making it an essential component for professional-grade exhaust and cooling systems.

Technical Specifications

Material	Durable Plastic
Primary Applications	Air Conditioning, Ventilation Equipment, Exhaust Systems

Identification

Visible Markings

- 95012
- H-102
- 0502-10000

Design Features

Design Highlights

Curved Blade Profile • Reinforced Hub • Multi-Spoke Structure
