

Centrifugal Fruit and Vegetable Juicer

This centrifugal juicer is designed for extracting juice from fruits and vegetables. It utilizes a high-speed motor and a large feeding chute to efficiently process ingredients, separating pulp for easy disposal.

Product Overview

Professional Centrifugal Juicer

This high-performance centrifugal juicer is engineered for efficient extraction of juice from a wide variety of fruits and vegetables. Designed with a high-speed motor and a spacious feeding chute, it allows for seamless processing of whole produce. The unit is constructed from high-quality, food-grade materials to ensure safety and durability for long-term usage.

Technical Specifications

Operation Type	High-speed centrifugal extraction
Feeding Chute Design	Large capacity for whole produce
Material Safety	Food-grade

Features & Safety

Safety Mechanisms

- Auto-lock assembly sensor
- Operational safety interlock

Cleaning and Maintenance	Detachable pulp container for simplified maintenance
