

Centrifugal Fruit and Vegetable Juicer

This centrifugal juicer efficiently extracts juice from various fruits and vegetables. It features a pulp ejection system that separates pulp into a dedicated container, along with multiple speed settings.

Product Overview

Professional Centrifugal Juicing Solution

This advanced centrifugal juicer features a sleek European-inspired design that combines aesthetic appeal with robust performance. Engineered with high-grade food-safe materials, it ensures a hygienic extraction process for both fruits and vegetables. The unit leverages cutting-edge motor technology to provide strong, reliable endurance for demanding environments.
