

Centrifugal Juicer with Two-Speed Control

This centrifugal juicer operates at 300W and is designed for extracting juice from various fruits and vegetables. It features a two-speed function with pulse, along with separate containers for juice (250ml) and pulp (350ml).

Product Overview

Efficient Centrifugal Juicing

This centrifugal juicer is designed for efficient extraction of juice from fresh fruits and vegetables. It features a robust 300W motor and a two-speed control system with pulse functionality to handle various produce types. Constructed with a durable plastic housing and stainless steel components, it offers a reliable solution for daily juicing needs.

Technical Specifications

Power Output	300 W
Voltage & Frequency	AC220-240V 50/60Hz

Capacity & Design

Capacity

250 ml
Juice Cup

350 ml
Dregs Cup

Features & Controls

Speed Control

- 2 Speed Settings
- Pulse Function

Materials & Construction

Material Composition	Plastic Housing, Stainless Steel Blade, Stainless Steel Filter
