

Centrifugal Juicer

This centrifugal juicer is designed for extracting juice from fruits and vegetables. It features a stainless steel body and a high-power motor for efficient juice extraction.

Product Overview

High-Efficiency Centrifugal Juicer

The Juicer J-45B is a professional-grade centrifugal juicer engineered for high-volume juice extraction from a wide variety of fruits and vegetables. Featuring a robust stainless steel construction, this unit is built to withstand rigorous daily use while ensuring hygiene and durability. Its high-power motor and large feeding chute design streamline the juicing process, allowing for whole-produce processing and significantly reducing preparation time.

Technical Specifications

Body Material	Stainless Steel
Safety Features	Safety Locking Mechanism, Secure Assembly Interlock

Operation & Performance

Speed Settings	Multiple speeds
Feeding Chute Type	Large (Whole fruit compatible)

Components

Included Components

- Pulp Container
- Juice Collector
