

Centrifugal Pump

This centrifugal pump is designed for efficient fluid transfer. Its robust construction ensures reliable performance in various industrial applications.

Product Overview

Energy-Efficient Lighting Solution

This compact fluorescent light bulb (CFL) is designed as a highly efficient alternative to traditional incandescent lighting. Utilizing a coiled, phosphor-coated glass tube, it provides consistent illumination while significantly reducing energy consumption. Its standard screw base ensures compatibility with a wide range of common light fixtures, making it an ideal choice for both residential and commercial applications.

Technical Specifications

Technology	Compact Fluorescent (CFL)
Design Features	Spiral Tube, Phosphor Coated, Energy Efficient
Base Type	Standard Screw Base

Performance Metrics

Key Benefits

- Lower energy consumption
- Longer operational lifespan
- Direct incandescent replacement
