

# Centrifugal Water Pump

This centrifugal water pump is designed for high delivery rates with low to medium heads. Its volute impeller enables it to pump water that is even fairly dirty, making it suitable for industrial and agricultural applications.

Type	Power		H max (m)	Q max (l/min)
	HP	kW		
SHF4A	0.5	0.37	9	320
SHF4B	0.75	0.55	14	380
