

Centrifugal Water Pump

This centrifugal pump is designed for a wide range of applications. It features a robust construction with a cast iron pump body and impeller.

Product Overview

CM Monobloc Horizontal Centrifugal Pump

The CM series monobloc horizontal centrifugal pump is engineered to meet EN 733 standards, ensuring reliable performance across a wide range of professional applications. This robust unit is designed for efficient water transfer, making it an ideal choice for water supply systems, pressurization, and fire-fighting installations. Its versatile construction also supports cooling, heating, irrigation, and various industrial or agricultural duties.

Technical Standards

Included Components

- Counter-flange
