

Centrifugal Water Pump for Irrigation and Drainage

This centrifugal water pump is designed for efficient water transfer and circulation. Its robust cast iron construction ensures durability and long-lasting performance.

Product Overview

Professional Irrigation and Drainage Solution

This high-performance centrifugal water pump is engineered for efficient water transfer and circulation in agricultural and industrial settings. Built with robust cast iron, it ensures long-lasting durability and reliable service in demanding environments. Equipped with a protected electric motor, it provides consistent performance for irrigation, drainage, and general pumping tasks.

Technical Specifications

Body Material	Cast Iron
Power Source	Electric Motor
Key Features	High Performance, Durable Construction, Protected Motor

Applications

Common Applications

- Agricultural Irrigation
- Water Drainage Systems
- General Water Transfer
- Fluid Circulation
