

Centrifugal Water Pump for Irrigation and Drainage

This centrifugal water pump is designed for drainage and irrigation applications. It features a robust electric motor and durable pump housing, suitable for agricultural, industrial, and domestic water transfer.

Overview

High-Efficiency Centrifugal Water Pump

This centrifugal water pump is expertly engineered to meet the demands of agricultural irrigation, large-scale drainage, and industrial water transfer systems. Built with a robust electric motor and a durable cast iron housing, it ensures long-term reliability and stable operation. Its stable base design and integrated connection box make it a dependable choice for both professional and domestic fluid management.

Technical Specifications

Primary Applications	Agricultural Irrigation, Industrial Drainage, Domestic Water Transfer
Housing Material	Cast Iron
Electric Motor Powered	Yes
Mounting	Sturdy Base Mount
