Product Overview

Compact Centrifugal Pump

This efficient centrifugal water pump is designed for reliable water circulation in small to medium-sized setups. With a submersible design and a maximum head of 1.0 meter, it is suitable for aquariums, hydroponics, and various water-based systems. It utilizes brushless, permanent magnetic technology to ensure energy-efficient operation and quiet performance.

Performance Metrics

Key Operating Metrics

1 m

Max Head

600 L/H

Max Flow Rate

5 W

Power Consumption

Technical Specifications

Electrical Requirements

- Rated Voltage: 12VDC
- Max Rated Current: 0.42A
- Driving Method: Brushless, Permanent Magnetic

Physical Dimensions

Property	Value
Size	71.5mm x 70mm x 50mm
Weight	0.42kg
Outlet Diameter	16mm

Material: ABS

Environmental and Usage

Operational Conditions	Submersible, Fresh Water Compatible, Salt Water Compatible
Max Working Temperature	60 Celsius
