

Ceramic Coating Hair Straightener with Adjustable Temperature

This professional hair straightener features 25x110mm ceramic coating plates and floating plates. It offers adjustable electronic temperature control from 120 to 200 degrees Celsius and includes a power light indicator and PTC heater for instant and fast heat recovery.

Product Overview

Professional Performance

This professional-grade hair straightener features 25x110mm ceramic-coated floating plates designed for even heat distribution and reduced hair damage. Engineered for efficiency, it utilizes a PTC heater for instant heat-up in just 30 seconds and fast recovery. With an ergonomic slim design and a built-in digital ionic generator, it offers both comfort and salon-quality results.

Technical Specifications

Operating Voltage	220-240V
Frequency	50 / 60Hz
Plate Dimensions	25x110mm
Plate Coating	Ceramic

Performance Metrics

Heat-up Time

30 seconds

To 160°C

Temperature Range	120°C - 230°C
