Product Overview

Professional Ceramic Hair Straightener

This professional-grade hair straightener features advanced ceramic or tourmaline-coated floating plates designed for even heat distribution and smooth gliding. Equipped with a high-efficiency PTC heating element, it reaches temperatures up to 230°C in just 90 seconds, ensuring rapid styling and salon-quality results. The device offers adjustable temperature control and an ergonomic design with a 360-degree swivel cord for maximum maneuverability and comfort during use.

Technical Specifications

Power Consumption	45 W
Voltage Range	AC220-240V / 110V
Operating Frequency	50Hz/60Hz

Performance Metrics

Heat-up Time

90 seconds

Time to 230°C

Maximum Temperature	230 °C
