

# Cervical Vertebra Massage Pillow

This ergonomically designed massager is suitable for the cervical vertebra and other body areas. It features a soothing heat function and rotating massage nodes to relieve muscle tension and promote relaxation.

## Overview

### Ergonomic Cervical Relief

This cervical vertebra massage pillow features a small, portable design that makes it easy to enjoy a relaxing massage anywhere, from your home to your car. Constructed with durable, environmental PU material, it offers both comfort and longevity. The integrated soothing heat function helps to promote blood circulation and effectively alleviate muscle aches and physical fatigue.
