

CF8M Flanged Foot Valve, 150 lb

This foot valve is designed for installation at the bottom of a suction pipe in a pump system. It is suitable for applications in oil fields, the chemical industry, and coal mines.

Product Overview

High-Performance CF8M Foot Valve

The CF8M flange foot valve is a specialized check valve engineered for installation at the base of suction pipes in pump systems. By effectively preventing backflow, this valve ensures that pumps remain primed and operational. Constructed from durable CF8M stainless steel, it offers superior corrosion resistance, making it an ideal choice for demanding industrial environments such as water treatment, chemical processing, and oil and gas applications.

Technical Specifications

Pressure Rating

150 lb

Pressure Class

Connection Type

Flanged

Material Grade

CF8M Stainless Steel

Valve Category

Foot Valve / Check Valve

Applications

Suitable Industries

Water Treatment, Chemical Processing, Oil & Gas, Industrial Pump Systems
