

CG125 Motorcycle Clutch Plate

Motorcycle clutch plate designed for CG125 models. It has a 3.05mm thickness and a 119mm outer diameter.

Product Overview

High-Performance Clutch Plate

This high-performance clutch plate is engineered for optimal friction and heat dissipation, ensuring smooth and reliable power transfer. Constructed from durable A-class rubber and cork-based materials, it is designed for extended service life under demanding riding conditions. The precision-machined construction provides enhanced grip, reduced slippage, and easy installation for a wide range of motorcycle models.

Technical Dimensions

Outer Diameter	119 mm
Inner Diameter	91 mm
Thickness	3.05 mm
