

# CG150 62mm Motorcycle Piston Kit

This complete piston kit is designed for CG150 motorcycle engines. It features a 62mm diameter piston, piston rings, wrist pin, and circlips for optimal performance and durability in 150cc engines.

## Product Overview

### High-Performance CG150 Piston Kit

This complete piston kit is engineered for 150cc motorcycle engines, specifically compatible with the CG150 platform. Featuring a precision-machined 62mm diameter piston, the kit includes all essential components such as piston rings, a wrist pin, and circlips. Designed to deliver optimal performance and long-term durability, this kit is an ideal solution for engine overhauls and maintenance.

## Technical Specifications

Piston Diameter	62 mm
Engine Compatibility	CG150 / 150cc

## Kit Contents

### Included Components

- Piston
- Piston Rings
- Wrist Pin
- Circlips

## Key Features

Performance Attributes	Optimal Performance, Enhanced Durability, Precision Engineered
