

Chain Saw Shock Absorber Gasket

This shock absorber gasket is designed for TL380 chain saws. It provides vibration dampening and shock absorption to enhance the performance and longevity of the chain saw.

Product Overview

Professional Grade Shock Absorber Gasket

This shock absorber gasket is specifically engineered for use with TL380 chain saws. It is designed to provide critical vibration dampening, which helps to improve operator comfort while enhancing the overall performance and longevity of the tool. Built from high-durability materials, this component ensures a secure and reliable fit even under the most demanding operating conditions.
