

CHARGE6 Series Battery Charger

The CHARGE6 series battery charger is a robust and efficient device designed for charging various types of batteries. It features a durable enclosure with ventilation slots for thermal management.

Overview

Professional Battery Charging Solution

The CHARGE6 series battery charger is a robust and efficient device engineered for reliable performance across diverse charging applications. Featuring a durable enclosure with integrated ventilation slots, it ensures optimal thermal management during operation. The unit is equipped with a user-friendly interface, including a clear meter for monitoring charging status, alongside heavy-duty cables and clamps for secure, professional-grade connections.

Key Features

Build Quality

Durable Enclosure • Thermal Management System • Heavy-duty Cables

Suitable Applications

Automotive, Marine, Industrial

Interface & Control

Control Panel Components

- Power Switch
- Status Indicator Lights
- Charging Status Meter
