

Chemical Liquid Tanker Truck

This heavy-duty truck is designed for transporting chemical liquids. It features a robust chassis and a cylindrical tank.

General Overview

Industrial Liquid Transport Solution

This heavy-duty chemical liquid tanker truck is engineered for the safe and efficient transport of industrial fluids. Featuring a robust chassis and a specialized cylindrical tank, the vehicle is built to withstand the demands of rigorous daily operations. It incorporates essential safety features, including side reflectors and heavy-duty tires, ensuring reliability and high performance in professional logistics environments.

Transport Applications

Chemical Liquids, Industrial Fluid Logistics

Technical Specifications

Design Configuration

- Cab-over engine design
- Cylindrical tank structure
- Heavy-duty chassis construction

Safety and Compliance

Safety Features

Side Reflectors • Heavy-Duty Tires • Industrial Grade Maintenance
