

Children's 16-inch Bicycle with Training Wheels

This children's bicycle is designed for young riders learning to balance and pedal. Featuring a sturdy frame, it includes training wheels for added stability and safety.

Product Overview

Designed for Young Riders

This 16-inch children's bicycle is expertly designed to provide a safe and enjoyable learning experience for young riders. Built with a durable steel frame, it offers the stability needed for those mastering balance and pedaling. The inclusion of training wheels, along with front and rear brakes, ensures a secure ride, while the added basket and rear rack provide functional convenience for young adventurers.
