

Children's Bicycle with Training Wheels

This children's bicycle comes equipped with training wheels for beginner riders. It features a step-through frame and high-rise handlebars.

Product Overview

Designed for Young Riders

This children's bicycle is specifically engineered to support young riders as they learn to pedal and balance. Featuring a stable step-through frame and high-rise handlebars, it offers an ergonomic and confidence-inspiring riding position. The inclusion of training wheels and a protective chain guard ensures safety and durability during the initial learning stages.
