

Children's Bicycle with Training Wheels

This is a children's bicycle. It comes equipped with training wheels, a rear rack, and front and rear fenders.

Product Overview

Designed for Young Riders

This children's bicycle is specifically engineered to support young riders as they learn to pedal and balance. Featuring a vibrant red and yellow frame, the bike includes essential safety and comfort components like a chain guard, fenders, and a rear rack. The inclusion of training wheels ensures stability for beginners, making it an ideal choice for early cycling development.
