

Children's Green and Gray Tricycle

This tricycle is designed with a sturdy frame, large front wheel, and two rear wheels for stability. It features pedals, handlebars with grips, and a seat with a backrest.

Product Overview

Designed for Young Learners

This children's tricycle features a robust green and gray design, specifically engineered to provide stability for toddlers learning to ride. The unit includes essential features such as a sturdy frame, comfortable seat with a backrest, and user-friendly pedals. With a decorative front panel incorporating simulated headlight and speaker detailing, it offers an engaging and safe introduction to independent mobility.
