

Children's Pink Tricycle with Push Handle and Storage Bucket

This children's tricycle comes with a parent push handle. It also features a yellow storage bucket at the rear.

Product Overview

Designed for Young Riders

This children's tricycle is designed to support young children as they learn to ride. Featuring a durable pink frame and a convenient parent push handle, it allows adults to maintain control and steer while the child develops their coordination. The inclusion of a rear storage bucket adds practical utility for carrying toys or small items during outings.
