

Children's Step-Through Bicycle with Training Wheels

This children's bicycle has a step-through frame and includes training wheels. It is equipped with front and rear fenders, a padded seat, and colorful grips.

Overview

Designed for Young Riders

This children's step-through bicycle is specifically engineered to assist young riders in developing balance and pedaling skills. Featuring a user-friendly step-through frame design and stable training wheels, it offers a secure and comfortable riding experience. The bike comes fully equipped with essential accessories including front and rear fenders and a convenient rear rack, making it a complete package for active children.
