

# Children's Step-Through Bicycle with Training Wheels

This children's bicycle has a step-through frame, making it easier for children to get on and off. Training wheels are attached to the rear for additional stability while learning.

## Product Overview

### Designed for Young Riders

This children's bicycle is engineered with a step-through frame design, specifically to help young children mount and dismount with ease. It features a stable, learner-friendly construction including detachable training wheels for added safety during the learning process. With its vibrant red and white color scheme and durable components, this bike is an ideal choice for beginners building confidence on two wheels.
