

Children's Tricycle with Backrest

This tricycle is designed for young children learning to ride. It features a backrest, offering stability and a fun riding experience.

Product Overview

Designed for Young Riders

This children's tricycle is engineered to provide a stable and enjoyable riding experience for young children learning to pedal. Featuring a durable frame and thoughtful ergonomic design, it includes a supportive backrest to ensure comfort and safety during use. The vibrant color scheme and playful handlebar tassels make it an appealing choice for early childhood development and outdoor play.
