

# Children's Tricycle with Parent Steering and Storage Baskets

This children's tricycle features a sturdy frame and a comfortable seat. It includes a sun canopy, front basket, rear storage, parent steering handle, durable wheels and pedals, designed for safe outdoor play.

## Product Overview

### Designed for Safe Outdoor Play

This children's tricycle is engineered to promote balance, coordination, and active outdoor play for children aged 2-5 years. The design features a robust metal frame combined with durable plastic components for comfort and convenience. Equipped with a parent steering handle, it allows for guided rides, ensuring safety while the child develops their cycling skills.
