

Child's Green and Blue Bicycle

This is a child's bicycle with a green front frame that transitions to blue at the rear. It is equipped with knobby tires, a single-speed drivetrain, and front and rear brakes.

Product Overview

Designed for Young Riders

This vibrant child's bicycle features a distinctive green-to-blue gradient frame, making it visually appealing for young cyclists. Engineered for durability and safety, it includes a protective chain guard and reliable front and rear braking systems. With its knobby tires, this bike is versatile enough for both neighborhood riding and light off-road exploration.
