

Chili Crushing and Grinding Set

This set is designed for crushing and grinding dried chili peppers. It allows for the creation of custom chili flakes and powders.

Product Overview

Professional Chili Crushing and Grinding Set

This specialized crushing and grinding set is designed for processing chili and similar granular ingredients. It delivers consistent texture and particle size, ranging from fine grinds to varied flakes, ensuring high-quality results for food processing applications. The set is optimized for durability and precision in handling spicy, abrasive materials.

Material Characteristics

Processed Texture	Granular, varied flake size
Color Variations	Light Orange, Deep Red, Varied Hue
Composition	Finely ground or shredded chili particles
