

Chopper-Style Electric Bicycle

This electric bicycle features a chopper-style design with a long, raked front fork and high handlebars. It is equipped with a rear suspension seat, a battery pack mounted on the frame, and a chain-driven drivetrain.

Overview

Chopper-Style Design

This electric bicycle features a distinct chopper-style design, characterized by a long, raked front fork and high-rise handlebars for a unique riding aesthetic. Engineered for recreational use, the bike combines a robust black frame with essential comfort features like a rear suspension seat. It is equipped with a reliable chain-driven drivetrain and a frame-mounted battery pack, making it a stylish choice for leisure riding.
