

Chrome Lever Actuator Switch with Transparent Housing

This switch features a chrome lever actuator for easy operation. Its transparent dome-shaped housing allows visual inspection of the internal spring mechanism.

Product Overview

Professional Chrome Lever Actuator Switch

This premium actuator switch features a durable chrome-finished lever paired with a high-clarity transparent housing. The design allows for immediate visual verification of the internal spring mechanism, ensuring reliable operation and easier maintenance. Its robust construction and aesthetic finish make it an ideal component for industrial control panels or specialized equipment requiring precise manual switching.

Design and Construction

Mechanism

- Visible internal spring mechanism
- Circular base with chrome trim

Housing Type

Transparent dome-shaped housing

Actuator Finish

Chrome-finished lever

Key Features

Compliance

Industrial Grade • Chrome Plated

Visibility

Transparent Inspection, Internal Monitoring
