

Chrome Plated Brass Angle Valve with Dual Handles

This angle valve is constructed from durable brass with a polished chrome finish. It features dual handles to independently control hot and cold water flow.

Product Overview

Professional Chrome Plated Angle Valve

This dual-handle angle valve is engineered for reliable flow control in water supply systems. Constructed with a durable brass body and finished with high-quality polished chrome, it offers excellent corrosion resistance and a professional aesthetic. Designed for versatility, it supports multiple connection sizes and is built to withstand pressures up to 10 bar.

Technical Specifications
