

Chrome Plated Steel Circular Food Preparation Rack

This circular high rack is constructed from chrome-plated steel. It features parallel bars supported by a circular frame and elevated by three integrated legs, designed for oven or food preparation use.

Product Overview

Professional Food Preparation Rack

This circular high rack is engineered for efficient food preparation and oven use. Constructed from durable chrome-plated steel, it features a robust parallel bar design supported by a sturdy circular frame. The elevated structure, supported by three integrated legs, ensures optimal airflow and positioning for consistent cooking results.

Physical Characteristics

Material	Chrome-plated steel
Shape	Circular
Key Features	Elevated support, Parallel bar design, Three integrated legs

Usage

Applications

- Oven use
- Food preparation
- Elevated cooling or support
