

Chrome Plated Steel Grill Rack

This circular grill rack is constructed from chrome-plated steel. It features a concentric outer ring and a series of parallel bars for supporting food items during cooking.

Product Overview

Professional Grade Grill Rack

This circular grill rack is engineered from high-quality chrome-plated steel, offering a durable and reliable solution for professional cooking environments. Designed with a concentric outer ring and precision-welded parallel bars, it ensures even support for food items during grilling or oven roasting. The chrome finish not only provides a sleek appearance but also facilitates easy cleaning and maintenance, making it an essential component for efficient food preparation.

Physical Dimensions

Diameter	12 inches
Height	0.5 inches

Material & Construction

Material	Chrome-plated steel
Design Features	Circular shape, Concentric outer ring, Welded parallel bars

Usage & Applications

Key Benefits

- Durable construction
- Easy-to-clean surface
